## NEW REGULATIONS

Governing Applications for Pardons Prescribed by the Attorney General.

WASHINGTON, July 30.—New regulations governing applications for the pardon of persons convicted of offenses against the Federal laws have been promulgated by Attorney General Harman. Applications for pardon must be signed by two or more credible persons and should be addressed "to the president of the United States" under cover to "the attorney general, United States."

Each application should state the name of the convict, his age, nativity and previous occupation, together with the crime for the commission of which he was convicted, the United States court in which he was tried and at what term, the name of the prison to which he was sentenced and for how long and the grounds on which his pardon is asked. In capital cases, if the report made by both the district attorney and the trial judge is adverse to the granting of the pardon, the papers are not sent to the president for his expediency of extending executive clemency, the papers are forwarded to the president for his decision.

Applications made merely for restoration to citizenship will not be considered by the president prior to the expiration of the sentence. After the convict has been released for a considerable period and his good conduct is certified to by the people among whom he lives, the president will then consider the application.

## ROBBERS LYNCHEDE.

They Took a Farmer's Horse—Then Set Fire to It—The Family Narrowly Escaped Destruction.

JAYESBOROUGH, Ind., July 30.—Word comes by telephone from Allen, Crawford county, to the effect that two men were arrested with the aid of bloodhounds Monday for the robbery at the residence of John Kemp, a wealthy farmer, and then setting fire to the house to conceal their crime, very nearly cremating his entire family.

An infuriated mob of neighbors who were following the hounds seized the prisoners, and from the most authentic information received took the law into their own hands and lynched them. Two of the party returned to the city late Monday afternoon, but absolutely refused to give any information as to the disposition made of the prisoners. The fact that the officers had not returned with the prisoners to place them in jail gives rise to the belief that they were either lynched or roughly handled.

The residence of County Commissioner Hawley was robbed of a large amount of money Friday night, and Sunday night the clerk of the office of the Louisville, Evansville & St. Louis road at Tasswell, near Allen, was robbed of over \$500 worth of tickets and considerable money. Numerous other depredations in that vicinity lately have caused the residents to swear vengeance on the perpetrators of the crime.

## THE SOUTH POLE

Times in a Share of Attention by the International Geographers.

LONDON, July 30.—The session Monday of the International Geographical congress was opened with the discussion of polar exploration. Dr. Neumann and Mr. Joseph Hensler, a survivor of the Arctic expedition headed by Sir John Ross, 1829-33, urged that fresh expeditions be equipped, and Dr. Murray, leader of the Challenger expedition, argued in support of the theory that the Antarctic continent was not a continuation of volcanic islands, but that investigations in the Antarctic ocean ought to be undertaken by the navies of the world, and not as a result of private enterprise. A small committee was appointed to draft a resolution in favor of further explorations.

## WILL NOT INSIST.

Insistent Before the Evidence Taken at Toronto World Hang Holmes.

TORONTO, Ont., July 30.—Though Acting Attorney General Hilly has not yet given his decision, it is learned on most reliable authority that the extradition of Holmes until all legal sources have been exhausted in the United States. The attorney general is under the impression that the police authorities here have been a little too sanguine in their belief that they had strong enough evidence to hang Holmes. He would much rather have Illinois or Pennsylvania bear the expense and trouble than Ontario.

Mrs. Corbett Oble Her Divorce.

New York, July 30.—Refuses Edward Jacobs has decided that Mrs. Oble Corbett is entitled to an absolute divorce from her husband, Augustus James J. Corbett, and so reported Monday to Judge McAdam in the superior court. With reference to the question of alimony referee Jacobs says that a matter which the parties have agreed to arrange themselves. He recommended that Corbett's agreement to pay his wife \$100 a week be adopted.

Examiner Maxwell Resigns.

WASHINGTON, July 30.—George Maxwell, examiner in the United States patent office, who was arrested in this city about a month ago for violating the Edmunds anti-polygamy law, has, at the request of the commissioner of patents, handed in his resignation, to take effect the last of this month. Maxwell is no longer on duty at the office.

## Rita Missing.

## TORCH APPLIED.

A Courier Reports Indians Burning and Pillaging Houses.

LEMBI, Ind., July 30.—The United States troops on the way to Jackson's Hole reached the mouth of the Snake river at 10:30 o'clock Saturday night. Camp was broken up daylight, and Rexburg was reached at 8:30 a. m. by the advance troops, the main body arriving two hours later. The camp Sunday night will be on Canon creek, twenty miles from Rexburg.

Gen. Coppinger has engaged Deputy Sheriff Hawley as chief of scouts and also John A. Carnes, an old Indian scout, to guide the troops through the mountains. Hawley and Carnes both say that the killing of the Indians three weeks ago was simply a massacre perpetrated by the whites. The leaders of the twenty-seven white men who captured the sixteen Indians were Steve Adams, Wm. Crawford, John Crawford, Frank Peterson, Frank Woods, Billy, Harvey, Joe Callison and Wm. Stansbury.

It is now extremely dangerous to reach the point where the Indians are encamped. Twenty miles of dense forest lie between the main body of settlers and the Indians, who are encamped in the most rugged portion of the Rocky mountain system, rising in annual facilities, the lava beds of the Mexican war. If they are inclined to be hostile it will require several thousand troops to dislodge them, and the starting-out process is the only one that will be successful. According to the scouts who accompany the troops, Indian scouts well acquainted with the country where the Indians are encamped fear the present quiet of the Indians means that a trap has been prepared for the troops, but every precaution will be taken to prevent a repetition of the Custer affair.

A large body of Lemhi Indians, probably 150, have joined the Indians in Jackson's Hole country. A large party of Indians at Cammas were observed on the night of July 25 to be watching, by means of fires and signal arrows (arrows to which were attached flaming material), shot in the direction the reinforcements were to take. The morning of the 26th, Indians were seen to have changed their course to the direction taken by the flaming arrows during the night.

Friday, July 27.—Despite the denials from Boise, Ida., and from Washington in regard to the alleged massacre at Jackson's Hole, a local paper has the following dispatch from Market Lake, Ida.:

"Late Saturday morning a courier from the Teton river valley reached Market Lake with a dispatch from some ranchmen who are bartered in a ranch in the valley this side of Jackson's Hole. The message reads:

"We every influence to hurry the soldiers forward. Indians are murdering, burning and pillaging. For God's sake lose no time. The courier can not tell what was the extent of the massacre at Jackson's Hole. The torch has been applied behind the range and there could be seen at night."

## AMERICAN GUNS.

China Preparing to Place Many Large Orders in This Country.

NEW YORK, July 30.—China is fast completing arrangements to place large orders for ships, guns, small arms and ammunition abroad. The extent of her plans was disclosed when Col. M. H. Jeffers, C. E., military attaché of her legation in London, and Pung Hong Wong, secretary of the embassy in the English capital, arrived in this city after a successful trip to Perryville, this state, of a new and destructive projectile.

American manufacturers of guns and ammunition, when China places her final orders, will have considerable cause for congratulations, it being known that the reports thus far made to the Peking government are greatly in favor of American devices. The shells tested at Perryville are invented by Mr. Justin, who claims to have solved in his new projectile the problem of combining explosive gelatin with safety. The gun used was a nine-inch Blakely rifle.

The Chinese commissioners expressed themselves as thoroughly satisfied.

## WILL NOT CONFESS.

Holmes' Attorney Claims His Client Is Innocent of Murder.

PHILADELPHIA, July 29.—H. H. Holmes, the alleged murderer of eight persons, will remain mum as to his crimes. His lawyer, William A. Shoemaker, says that Holmes will not make a confession. The attorney also made the following suggestion:

"Did it ever occur to you," he asked, "that the Minnie Williams who was murdered by Theodore Duran in San Francisco was of about the same age as the Minnie Williams of this case, and that she was not known in that city and had no relatives? Who knows but that the 'Frisco Minnie might be the missing girl? It is true, when the Williams girl left Holmes he said she was going to Europe, but there is no positive knowledge, even to him, that she did go."

Word From Agent Teier.

WASHINGTON, July 29.—Commissioner Browning of the Indian bureau Saturday morning received a telegram from Agent Peter Teier at Idaho Falls, Idaho, saying: "I have joined Gen. Coppinger en route to Jackson's Hole. The Indian police who have returned from Jackson's Hole state that the Indians there will not resist the troops." The telegram was sent at a later hour than the press dispatches, and, inasmuch as there is no mention in it of a massacre, Mr. Browning is inclined to think the couriers whose stories formed the basis of the reports, greatly deceived the officials.

At the Ready To Die.

REXBURG, Ind., July 29.—A family of men, while near Anna, made their supper on toothpicks, which they mistook for mushrooms. Three children already dead, and the mother and other boys are ill and are not expected to live.

Later Election Returns.

ANNON, July 30.—The total election returns to 3 o'clock Saturday afternoon the following result: Con. 330, unionists, 72; liberals, 12; nationalists, 68; parliament, 12; seven constituencies yet to be heard from.

## THE HUGE VAULT

Underneath the Holmes Castle Unearthed—The Tolls Tightening Around Quilana.

CHICAGO, July 30.—The huge vault underneath Holmes' "Charnel House" was unearthed by the police Monday, who are still delving in the earth in and about the cellar.

At 4:30 p. m. officers in charge of the work telephoned police headquarters that they had reached and uncovered a long strip of the roof of the vault. Indemnity at once gave orders to get the ground in such shape that the vault could be easily opened Tuesday and they then discontinued work for the day.

The police theory is that Holmes used this vault for quicklime, the bodies of his victims and getting them into such a condition that they could not possibly be identified, and that Chappell, the articulator, would not suspect that the bodies were anything more than cadavers secured at some of the medical colleges, morgues or hospitals. While the police officials are not hopeful in finding bodies of murdered people in the vault, they are at the same time hopeful of securing evidence to fully establish just what the vault was used for and what connection, if any, the vault had with the half destroyed human bodies that were carried away from the charnel house to the home of the articulator.

During the afternoon there was an exhibition in Inspector Fitzgerald's private office the skeleton and trunk that contained it, which was found through the advice given the police by Chappell, the articulator, and the skeleton is that of a woman about 25 years of age, and the police think it is all that remains of the Williams girls or Emilie Clegard. Almost every new development lands Janitor Quilana in the police net, much to their satisfaction. They know he is unwilling to tell all he knows, and are anxious to secure enough evidence to force a confession from him in order to fasten the crimes upon Holmes securely.

## THE TIN BOX SWINDLE.

It is a Better Scheme Than Gold Bricks.

KOKOMO, Ind., July 30.—A. D. Hensler and other farmers of Liberty township, this county, were made the victims of the old tin box swindle last week. A man giving himself as John Schmidt, a horse buyer, worse buyer, went to Hensler several days ago, engaged boarding and Mr. Hensler's assistance in buying horses, they purchasing a large number of animals, some being paid for and some not. Schmidt brought with him a small tin box which he said contained \$2,000 in cash, which he kept at the Hensler home while buying and shipping. Friday Schmidt mysteriously disappeared and has not since been heard of. The defrauded farmers brought the tin box to town Saturday, expecting to find the whole lot of \$2,000 in it was supposed to contain, but when Sheriff Sampson cut it open with a hatchet there was revealed to sight two ordinary clay bricks, nothing more.

## THE TOLL OF MEMPHIS.

ST. LOUIS, Mo., July 30.—The Anchor life officials in this city state that the Memphis shortly after 6 o'clock Monday morning. They claim that the boat was delayed between Cairo and Memphis on account of the heavy local traffic, which made it necessary to stop at a greater number of wharves than usual on the downward trip. His failure to arrive at Memphis on schedule time gave rise to the rumor that the steamer had met with an accident.

## NEW BATTLESHIPS.

WASHINGTON, July 29.—Secretary Herbert has settled the last point that remained to be adjusted in the designs for the two new battle ships by ordering that the extra hundred tons required for the machinery of the ships be provided by reducing the coal capacity from 1,300 to 1,200 tons. The outline designs for the ships having now been arranged, the different bureaus of the Navy Department will immediately begin the preparation of the full specifications on which bids are to be invited for the construction of the vessels. It is probable that the advertisements will not issue before January 1 next, but will not delay the construction of the ships, owing to the fact that Congress as yet has not made an appropriation for them.

## SAVING WAS KIDNAPED.

POINT PLEASANT, W. Va., July 29.—Charles Young, 13 years old, claiming to live on Eighth street, Cincinnati, was found here half starved. He says that he was kidnapped from the front steps of his father's house and brought here in a shanty boat and then brought him here.

## Death of Judge Hoffman.

CUMBERLAND, Md., July 29.—Henry W. Hoffman, associate judge of the Baltimore district of Maryland, died at his residence in this city at 3 o'clock Sunday morning in his 63rd year. His health had been feeble for a considerable time. He enjoyed the personal esteem of President Lincoln and was appointed by him collector of the port of Baltimore in 1862.

INDIANAPOLIS, Ind., July 29.—Hundreds of hogs in Montgomery and adjoining counties are dying of hog cholera.

## Returned Without Registration Papers.

MAHAR, Ky., July 29.—Vern Hall, the prisoner who escaped from jail here last Sunday, was recaptured in Gallatin county, Ill., by Fred Lemons, a citizen of this county. Hall agreed to return without registration papers, and was brought in.

## The Fate of Tom Johnson.

HATTIESBURG, Miss., July 29.—The fate of the negro Tom Johnson has been definitely insured. He was taken before his victim, fully identified, and paid the penalty for his offense at the hands of a well directed mob.

## WALLER CASE.

Mr. Justice Presents a Second Demand on France.

As Yet No Answer Has Been Received—A Third Demand May Be Made—The Affairs Seem Likely to Develop a Grave International Matter.

WASHINGTON, July 29.—The officials of the state department are at present anxiously awaiting information from Ambassador Eustis as to the manner in which the second demand for the record of the Waller court martial, which was held in Tananarive, has been received in France. It is now learned definitely that the French government refused to furnish the record upon the first presentation of the request, and that this refusal was met on the part of the state department by a more positive and pressing demand for all the papers. The department is informed by Mr. Eustis that this demand has been presented to the French authorities. There has been quite sufficient time for a reply, but none has been received. The delay would seem to indicate that the French authorities appreciate the situation to an extent, at least, and, while apparently not prepared to change front without consideration, are yet disposed to delay another refusal as long as it can be done under diplomatic usages.

The course of the French in their refusal to supply the record is considered most unusual, and, as no explanation of the decision was vouchsafed, the department is at a loss to know upon what grounds it was based. It is customary when a government asks for evidence upon which one of its citizens has been convicted and sentenced to furnish a copy of the record, especially when the trial has been by a military court, and is a country foreign to the two governments. There is no other means by which the government of the accused may determine whether justice has been done or denied its citizen. It is presumed that if the refusal is persisted in (and an explanation is made in response to the renewed demand), it will be based upon the consciousness of the trial by the French court martial, and Mr. Kennedy, Waller's senior counsel, asserts that the precedents against this position are beyond question. The supposition is gaining ground that France's refusal to furnish the record is due to a desire not to give publicity to revelations made in the letters from Waller, which were intercepted by the French authorities, concerning the misconduct of some of the French soldiers.

In letters which have been received here from Waller within the past few days he reveals the fact that in his letters to his wife, he informed her of various outrages committed upon these native women of Tananarive, and in such a circumstantial account of the proceedings in Madagascar in a way which the French authorities might not desire to see published to the world. There is good reason for believing that the French government is loath to supply the record a second demand will be made, which will be peremptory. It is not believed, however, that this step would be taken in the absence of Secretary Olney, as it is probable that it made it might lead to serious international complications.

The state department authorities consider the case as one of importance, because it is liable to develop some very delicate and intricate questions before it shall be finally disposed of. It is known that Secretary Olney has been in the city, and it is believed that, while he has not had occasion to go into details to the extent that his predecessor did, Mr. Olney also feels that it is a matter of gravity.

This is from the pen of Henry  
Watterson, the editor whom the  
Republican press and speakers so  
often love to quote—when it  
suits their purposes: "All that is  
happening in Kentucky, as far as  
it relates to Kentucky, is peanuts  
politics. The record of twenty-five  
years unbroken Democratic admin-  
istration of the State Government  
is one of extraordinary merit.  
There has been less of wasteful-  
ness and less of scandal, and more  
of efficiency, than can be shown dur-  
ing the same period by any other  
of the State Governments of the  
Union. There is no domestic or  
personal reason why there should  
be a change of parties at Frankfort."

McKinley is making himself  
pretty numerous of late. He evi-  
dently expects the Presidency to  
be seeking a man and he is de-  
termined to get in his path, if pos-  
sible.

The voters will remember when  
they come to the polls that no  
wages were depressed until the  
McKinley and Sherman laws went  
into full force, and that none were  
raised until after these laws had  
been wiped from the statute books,  
and a low tariff law passed.

The Republican press and poli-  
ticians are laboring hard to get the  
impression abroad that there is  
great dissatisfaction in the ranks  
of the Democratic party of this  
State. We can not speak for the  
State at large, but we do know that  
the Democrats of this section are as  
well pleased as usual, and will vote  
the ticket straight. There may be  
a disgruntled one here and there,  
but such is always the case, and  
everything is not as peaceful in  
their own camp as they would wish  
it.

**The World's Fair Tests**  
showed us baking powder  
no pure or so great in test-  
ing power as the Royal.

A fact has leaked out that will be  
a disagreeable surprise to many  
people who are supporting Col  
Bradley for Governor, and may as-  
tonish some of the Republican  
leaders. There are other promi-  
nent Republicans, however, who  
will not be surprised, but will be  
much annoyed by the news that  
their scheme has become public,  
as its success depended upon  
"keeping it dark." Indeed, it is a  
dark subject.

After the Republican state con-  
vention in Louisville there was con-  
siderable comment about the "turn-  
ing down" of the colored Republican  
leaders who had endeavored to have  
one of their race placed upon the  
ticket. The fact that they were ap-  
parently ignored caused less com-  
ment, however, than did the com-  
plete acquiescence of the ambitious  
colored politicians. It now devel-  
oped that this apparent satisfaction  
was brought about by nothing less  
than a promise on the part of the  
Republican managers to divide all  
clerkship and appointments with  
the negroes.

The agreement is said to have  
been made at a secret conference  
between Col. Bradley's personal  
representatives and the committee  
of colored citizens who attended  
the State convention and demand-  
ed recognition in the make-up of  
the ticket. They were also told  
that if they would not insist  
on having a place on the ticket,  
they would make no row about it,  
they would be given half the clerk-  
ship at Frankfort and half the ap-  
pointments to be made by the Gov-  
ernor, in consideration of the fact  
that half the Republican votes in  
Kentucky are furnished by the col-  
ored citizens at every election. This  
proposition struck the commit-  
tee favorably, and after vowing  
their secrecy as to the whole mat-  
ter the conference ended. The  
colored leaders lived up to their  
part of the contract, making no  
further attempt to get a place on  
the ticket, and made no protest  
after the convention adjourned.  
Unfortunately, however, it looked  
like such a good thing that the ne-  
groes could not keep from talking.

Our friends, the enemy, are all  
torn up over the premature disclo-  
sure of one of their campaign plans.  
So long as there was no possible  
show for the election of their ticket,  
State, county, or municipal, they  
were entirely willing to put up a  
negro as a candidate. This made a  
fine display of their love for the  
meat and brother, and answered  
well as a sop to the hungry colored  
voter. But times change, and men  
change with them. The Republi-  
cans fancy they see a gleam of  
light, a ray of hope, in the present  
political outlook. A few counties  
in Kentucky went against us last  
fall, Tom Pettit is trying to split  
the old party with a Populist wedge  
driven by a free silver meal, and  
this gives a faint promise of defeat  
next November. This, surely, was  
the time of all times for the party  
professing free and unlimited love  
for the negro to give him a place  
on the State ticket. Or, failing to  
make him so prominent, at least  
let him run for the Legislature in  
Jefferson county, a county, accord-  
ing to Republican opinion, sure to  
go for the Democracy at the next  
election. Not much. Brer  
Bradley said no, and what he says  
goes. Then the howl came, and it  
was heard from the Sandy to the  
Mississippi. The situation was  
serious. Bating and boycotting  
were threatened. Something had  
to be done, or all the windy rhetor-  
ic of the Boss would be as sound-  
ing brass. Well, something has  
been done, and the dusky cohorts,  
the saddle-bred allies of Republi-  
canism have been placated. It is  
this plan, the untimely disclosure  
of which, has so torn up the lead-  
ers of our friends the enemy. The  
plan was in promises, but the  
results will be what a modern war-  
rior aptly calls a d-d barren  
ideality. It was simply this: If—  
ah, woe! "If"—if Bradley is elect-  
ed there is to be an equal division  
of the clerkships and other ap-  
pointive offices at Frankfort. A  
prominent Louisville negro is el-  
ected for warden of the penitentiary,  
and a Frankfort gentleman of color  
is to be chief clerk in the Auditor's  
office. This is the proposed deal,  
and its exposure has stirred up the  
Republicans greatly. They realize  
that they are between two dilem-  
mas, and some choose to make a  
flat denial of the statement. The  
Republicans at Frankfort are es-  
pecially stirred up, and while deny-  
ing that Lane and Ward, the two  
negroes referred to, are to be so-  
warded they admit that conferences  
have been held and promises made.

Go on with your promises and  
your conferences, gentlemen. The  
more you make and the more you  
hold the deeper you get and the  
less you will be to redeem your  
promises and keep your obliga-  
tions. Hardin, Harmony and Har-  
dolph is the rallying cry of the  
Democracy, and with it we will  
march to a glorious victory in No-  
vember. Bradley, Boesman and  
Buster won't win in Kentucky this  
year.

The temporary embarrassment of  
the State Treasury is over and the  
Treasurer is now paying salaries  
and other claims right up to date.  
And the very low rate of taxation  
was not increased, either.

Voluntary increases in wages  
throughout the country still con-  
tinue. Within the past week  
there have been quite a number  
of such instances, the in-  
creases ranging from 10 to 25 per  
cent.

After undergoing many hard-  
ships two urgent expeditions  
have safely landed in Cuba with  
arms and ammunition and several  
hundred men for the rebel ranks.  
Their landing is regarded as a  
serious blow to Campos.

Mr. Worthington C. Ford, Chief  
of the Bureau of Statistics, gives  
a brief, but highly interesting anal-  
ysis of our exports in June. The  
balance of trade has been in our  
favor for some time. The value of  
exports for the fiscal year just  
closed exceeded the imports by over  
\$100,000,000. He shows by figures  
what a masterly stroke of policy  
the bond contract was.

**CATS FORK KY.**

Farmers are about done with  
their oats.

Several people attended the  
quarterly meeting at Mud Lick.

Mrs. James Leekins spent the  
past week with her mother at Cul-  
bertson.

Bob Barrett spent the past week  
at home with his family and is now  
gone back to his work.

Corn looks nice, oats is extra  
good and wheat is just ordinary.

George Calven passed up Cat  
with a nice bunch of cattle and  
hogs.

Davis & Fields left Miller branch  
with a bunch of heifers last week.

People are having their wheat  
threshed around here.

John Short will soon commence  
a new railroad down Cat for his  
own benefit.

Bill Church is engaging hands  
to cut up his corn, he has in a  
large crop and says he wants to be  
in time.

**POKABOATAS.**

**Seed Wheat.**

One of the most reliable seed  
houses in Indiana has placed with  
Snyder Bros. a limited amount of  
blue seed wheat to be let out to re-  
sponsible farmers on shares, no  
farmer to get more than 25 bush-  
els or less than 24 bushels. They  
also have this wheat for sale for  
cash. The farmers may take their  
choice.

**RATCLIFF KY.**

Crops looking well after the rain.  
Our school is progressing nicely  
under the efficient management of  
Miss Della Elias.

One of the worst storms of the  
season visited our vicinity a few  
days ago; the rain fell in such  
torrents that creeks washed through  
cornfields and little branches be-  
came rivers, and took every thing  
before them.

We are sorry to say that a few  
evenings ago three of our best  
young men became engaged in a  
fight. They fought till they were  
horrible to look at. Will Hughes  
and Wesley Bernington was the  
participants.

Married, on the 23rd Miss Pear-  
line Hughes to Edward Sheft, of Va.,  
Rev. J. W. Thompson officiating,  
the union was witnessed by a large  
crowd of people. May their lives  
be long and prosperous is the wish  
of their many friends.

R. L. Horton is looking quite  
well after a week's work in the  
school room.

G. G. Bentley, while en route to  
Stinson Saturday to see his best  
girl, was thrown from a mule,  
and badly fractured his foot.

A man by the name of Williams  
at Willard, three miles from this  
place, was shot by Dan Lunders a  
few days ago and died instantly.

We congratulate Kambler on the  
excellent piece that came out in  
last week's paper, "Here and There."

A picnic near here Saturday was  
well attended and a civil time till  
in the evening, then broke up with  
a big row which is usual at such  
places.

We hope the time will come  
when such things as picnic and  
fighting will be thought of as the  
past, and boys and girls will pur-  
sue a better place for pleasure.

**FALLSBURG.**

M. Heason has moved back to  
our town after a sojourn of some  
months at Kenova.

Frank Cooksey has again chang-  
ed his quarters and is domiciled in  
the property lately vacated by  
Geo. W. Chapman. This is the sixth  
time Frank has moved since March  
and it is said that his old rooster  
well knows him to act by crossing  
his legs.

The gathering of "Old Maids"  
last Saturday night for the benefit  
of the pastor, Bro. Given, was in-  
cidentally a success, first as the name  
may suggest, and 2nd financially,  
and none were displeased. Ed  
Rice was the successful competitor  
for the cake, and all know that Ed  
had a smile on his face; for like  
the edge of Doc's knife, it could be  
seen.

The death of Miss Florence Loar  
was quite a shock to our commu-  
nity as she has many near and dear  
friends here. We also noticed the  
smiling countenance of G. J. Carter  
last Sunday evening on our streets  
returning from—Ah! well the  
"Lula Girl."

J. W. Shortridge and daughters  
have returned from Wayne county  
where the latter had been to secure  
schools. They were successful.

J. H. Ekers and H. S. Dean, of  
Oliveville, were here last week in  
attendance upon the box social as  
was John Jackson. "Jinks."

For Sale—Choice winter oats  
grown on the Elsie Improvement  
Co's farm. Inquire of

Hon. Benton McMillin, of Tennes-  
see, has recently made a trip  
through the South and is enthusi-  
astic over the improved industrial  
and agricultural situation.

The increase in wages and the  
resumption of work by so many  
mines and manufactures in Ohio is  
creating much alarm among the  
Republican leaders in that State,  
and it is thought that McKinley  
will have to order out the militia  
to stop such disastrous proceedings.

Dr. H. O. Cowse will be at Webb-  
ville on the second Monday in  
each month hereafter and remain  
three days for the purpose of doing  
all kinds of dental work. He will  
also go to Hattie on the fourth  
Monday in each month and remain  
three days. (3m)

There was a high tide in Sandy  
River last Thursday and Friday.  
On Thursday James Delancy  
was hauling a grist mill to his  
place on John's creek and while  
passing over a narrow slick bank,  
the mill slipped to the lower side  
of the wagon bed causing the wa-  
gon to turn over pulling the mules  
into John's creek. The mules were  
drowned and two wheels of the  
wagon lost. The mules were said  
to be very fine mules and to be  
worth two hundred and fifty dol-  
lars.

Miss Daisy Stomstead and her  
sister Miss Emma of Cincinnati  
attended the opening of our school  
here yesterday and are now the  
guests of Dr. I. R. Turner.

Cora Waits was in town last Sat-  
urday.

Col. Rights representing W. M.  
Kerr & Co. is in town.

The streets of our town are be-  
ing much improved.

Dr. W. T. Aikins of your  
City arrived here yesterday to see  
his patient Mrs. Cy Preston who is  
some what improved.

**"Incurable."**

We know that it sounds quackish  
to talk about the Electropoise cur-  
ing incurable diseases, but bear in  
mind the fact that it is the old  
treatment which has pronounced  
the case incurable. We do not  
make the claim that we can cure  
all so-called incurable diseases, but  
we do maintain with all earnestness  
that a case pronounced incurable  
by your family physician, is a  
splendid field for operation of the  
Electropoise. It may be just the  
treatment necessary, and is quite  
likely to be so. It talks, this is  
no argument against the "Poise,"  
but in such a case, the fact of the  
physician's statement is proven to  
be true. But many's the patient  
who has been given up by his phy-  
sician who has again received life  
through treatment of the Electro-  
poise.
